The speaker said that be was given authority to tell the people of the county that in Kansas and in the nation the Republican party would be successful in November. the nation the Republican party would be successful in November. The speaker stood upon the platform of true Republicanism—protection—and declared that in its perpetuity rests the safety, prosperity and continued happiness of the people of our country. Mr. Dawes ridiculed the policy, the teachings and the leaders of the People's party, and declared that Molile Lease was the best man in the outit—the master mind, the power behind the throne. His only reference to the Democratic party was to show the Insincerity of Thaddeus Stevens in his opposition to the exception clause in the old greenback note, and to attack Grover Cleveland's conclusions on the tariff. His tribute to the Union soldiers was superband fired the hears of young America with renewed patriotism and loyalty to the tause of the Union.

In conclusion he drew a comparison between the founders and champions of the Republican party, with Washington, John Adams, Lincoln, Ulyases Grant, Daniel Webster, Henry Clay, Garfield, Hayes and Harrison on its side, and the People's party, with Ignatius Donnelly, Mollie Lease and Jerry Simpson holding its banner—asking his audience with which set of men they wished to be identified. He withdrew from the platform amidst a storm of applause.

WAYNE M'VEAGH.

PHILADELPHIA, Oct. 15.-One of the largest political meetings of the campaign to explain his reasons for abandoning the Republican party. Mr. VcVeagh recently wrote a letter announcing that he would

ferred to the fact that he attained his ma-jority the day the Republican party was born; that he had never voted for a Demo-erat, and that four years ago he voted for liberty to vote for any but Republican watched with pain the steady growth of the corrupt use of money in politics. He had hoped that the Republican party would turn itself against congressional bounties and diminish that awful traffic in votes. His hopes had been disappointed, and he was convinced that noless the Rapublican party was checked it would make the poor poorer and the rich richer— ore corrupt and selfish and less patriotic. There was too much truth in the rumors that the election of ISSS had been lought. A prominent Republican manufacturer had said: "The McKinley bill is ours—we bought it." There was no way of accounting for the action of the Republican party for the last four years than as the bargain and sale of legisla than as the original and sale of legisla-tion. He did not see how any man in his senses thought it wise to inflict upon the poor the awild burdens of the McKinley bill; to debauch voters by offering them pensions; to impoverish the tax-payers; to buy vast masses of silver, for which there was no use, or to insult a small and weak sister republic like Chili by sending such a diplomat as Patrick Egan, or to threaten

her with war without waiting to translate her apology for a wrong done.

On the tariff question Mr. McVeagh sain that less than 12 per cent of the laborers of Pennsylvania could secure emlaborers of remsylvania could secure em-ployment in the protected industries, while the other 88 per cent, had to pay a bounty on almest everything they are and wore. The rich paid substantially nothing, but, on the contrary realized immense benefits out of the prevailing sys-tem of taxation. The depreciation in the value of farms in the country since 1870 was greater, in the speaker's judgment, than the cost of any manufacturies, is than the cost of any manufacturing in-terest in it. The farmer had to sell his wheat at a price fixed in Liverpool, and at less than it cost him. The farmer was forced to pay a big bounty to the cordage t for twine, owing to the McKinley
The former further found his povincreased by the tax he had to pay on

Seeing these things, it was not strange that ministers of the Gospei cried out that burden, and that Carnegie and his asso-ciates were responsible for every drop of blood shed at Homestead. These were not the ravings of Anarchists but the words of Christian teachers. And what was true of the McKinley bill and the great group of gigantic monopolies which were nourished by it was true of the reckless pension legislation. The wickedn of such legislation was more aparent when it was known that every dollar voted to pensioners involved a distinct diminution of the wages of labor. Floquent million-aires spoke glibly of the \$150,000,000 voted for pensions, forgetting that the vast sum came almost entirely from the earnings of the tollers. The speaker did not object to

Just pensions.

Mr. McVeagh then turned his attention to the silver question, and said that the present silver legislation was driving gold out of the country and that it was only a question of time when we would be re-

A MINNESOTA MUDDLE. St. PAUL, Minu., Oct. 15 .- The Demo cratic central committee this afternoon procured a writ of mandamus from Judge Briggs of the United States district cour to compel Secretary of State Brown to Democrat ticket on the Australian ballot. Secretary Brown had refused to do this, on the ground that four of the Democratic electoral candidates were also on the Peo-ple's party ticket, and he claims that he could place only the names of Democrats on the Democratic ticket. When the offi-cers went to serve the writ on Secretary Brown and his chief deputy they were not to be found, and are presumably in hiding. The officers are scouring the state for
